## **DETAILED ACTION**

## Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 8, the recitation of "a second contact of substantially the first length" is unclear.

Claim 6, line 7, the recitation of "a fourth contact of substantially the second length" is unclear.

## Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Choy (US 6,116,917).

Choy disclose a device/system (10) comprising:

a memory module (not shown);

a connector (12) mounted to a base (22) at an acute angle;

a first contact (E1, see Examiner's attachment) having a first length, a first module connection (E4, see Examiner's attachment) protrude into opening (14), a first signal line (18);

a second contact (E1) substantially the same with the first contact and dispose adjacent and on the same side with respect to the connector housing;

a third contact (E2, see Examiner's attachment) having a second length, a third module connection (E3, see Examiner's attachment) protrude into opening (14), a third signal line (18);

a fourth contact (E2) substantially the same with the third contact and dispose adjacent and on the same side with respect to the connector housing;

the first length is not equal to the second length;

Choy does not disclose the memory module is a double data rate memory module. It has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitation. Ex Parte Masham, 2 USPQ2d 1647 (1987).

#### Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Truc T. T. Nguyen whose telephone number is 571-272-2011. The examiner can normally be reached on 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paula Bradley can be reached on 571-272-2800 extension 33. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Application/Control Number: 10/600,668

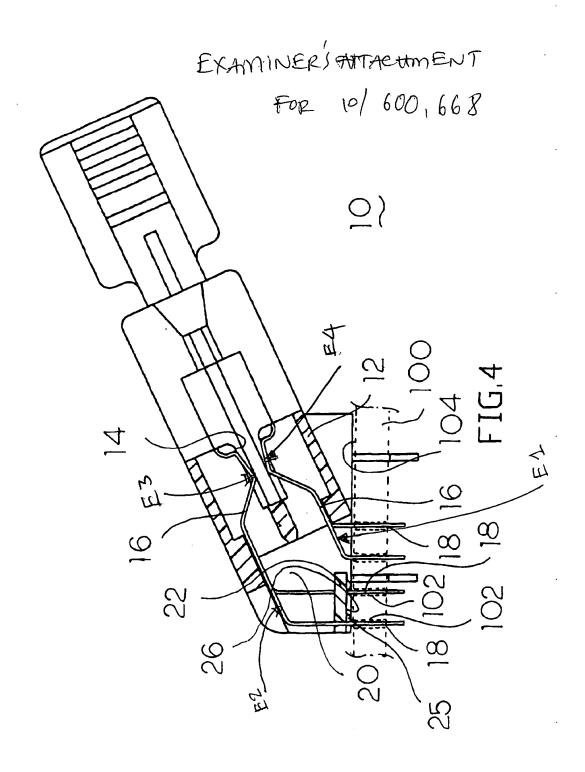

Art Unit: 2833

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
